

ESOT TLJ3.0

TRANSPLANTATION
LEARNING JOURNEY

PRAGUE, 13-15 NOV 2022

Working together to improve the lives of people with transplants

Register today and join us in Prague!

For this edition, the TLJ Steering Committees have selected nine topics. For each topic, the Committees will conduct evidence-based reviews, grade the evidence, and develop preliminary statements that will be discussed and voted in Prague by a wider panel, including jury members.

Machine perfusion in cardiothoracic transplantation

Histopathological analysis of pre-implantation donor kidney biopsy: Redefining the Role in the Process of Graft Assessment (Part 1)

The value of monitoring (subclinical) donor specific antibodies (DSAs) for kidney transplant outcomes

Liver transplantation in patients with Primary sclerosing cholangitis (PSC) and inflammatory bowel disease (IBD)

Clinical Endpoints in liver transplantation according to value based care

Downstaging, bridging and immunotherapy in liver transplantation for HCC

Role of Pancreas Machine Perfusion to Increase the Donor Pool for beta cell replacement

Prehabilitation for solid organ transplant candidates

Molecular Biology Testing for Non-Invasive Diagnosis of Allograft Rejection

The programme includes:

Educational session on “Immunomodulation and desensitization in kidney transplantation”

The European Transplantation And Innovation Consortium For Risk Stratification In Kidney Transplant Patients Statistical Workshop: Development, validation, and reporting of a prediction model. [<https://eu-train-project.eu/>]

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement No. 754995.

All participants will have the opportunity to contribute to the development of future ESOT guidelines.

ISHLT-ESOT MCS Regional Academy on Core competencies in mechanical circulatory support

Choose your registration:

CONSENSUS
