

**Tuesday 28 February**

12:30-17:00: **The Post Graduate Masterclass** in collaboration with the UK Liver Collaborative

**The Penthouse Suite, Doubletree by Hilton, Edinburgh**

Time	Programme	
12:00	Registration and light lunch	<p>The BTS Postgraduate Masterclass is kindly sponsored by Corza Medical</p> 
12:25	Welcome and Introduction – <b>Charlie Brown</b>	
12:30	<b>Trainee Led MDT listing</b> <ul style="list-style-type: none"> <li>• Cardiothoracic case presented by <b>Luke Williams</b>. Consultant moderators: <b>Stephen Large and Jas Parmar</b></li> <li>• Liver case presented by <b>Laura Burke</b>. Consultant moderators: <b>Raj Prasad and Anya Adair</b></li> <li>• Kidney case presented by <b>Victoria Banwell</b>. Consultant moderators <b>Neal Dugal and Ellie Asgari</b></li> </ul>	
14:00	Refreshment break	
14:15	Keynote presentation: A Career in Liver and Transplant Surgery, managing Haemostasis. What we have learned in that time – <b>Professor Evaristo Varo</b>	
14:45	<b>Chairs: Katie Connor &amp; Raj Prasad</b> <b>What can the UK Offer Transplant Trainees? OOPR/OOPT Opportunities</b> <b>Introduction - Katie Connor</b> <ul style="list-style-type: none"> <li>• Cardiothoracic – <b>Luke Williams</b></li> <li>• Nephrology – <b>Ailish Nimmo and Emma Cannon</b></li> <li>• Liver – <b>Emily Thompson</b></li> <li>• Kidney – <b>Kamlesh Patel</b></li> <li>• Retrieval – <b>Subhankar Paul</b></li> <li>• Pancreas – <b>Ann Ogbemudia</b></li> </ul>	
16:40	Closing remarks – <b>Cat Boffa</b>	
16:55	Drinks reception	

**Wednesday 1 March, EICC, Edinburgh**

Time	Programme
	<b>Sidlow</b>
08:30-10:00	<p><b>BTS Dragons' Den 2023</b>  <b>Chairs: Charlie Brown &amp; Kaitlin Mayne</b>  <b>Dragons</b>  <b>Prof Lorna Marson</b>, Transplant Surgeon (kidney &amp; pancreas), Edinburgh, <b>Miss Anya Adair</b>, Transplant Surgeon (liver), Edinburgh, <b>Mr Simon Knight</b>, Transplant Surgeon (kidney &amp; pancreas), Oxford, <b>Dr Adnan Sharif</b>, Consultant Nephrologist with an interest in transplantation, Birmingham, <b>Dr Sian Griffin</b>, Consultant Nephrologist with an interest in transplantation, Cardiff</p> <p>With support from NHSBT Clinical Trials Unit (CTU), Kidney Research UK &amp; Patient and Public Involvement (PPI) representatives</p> <p>Welcome and introduction – <b>Kaitlin Mayne and Charlie Brown</b>  <b>Dragon's den competition presentations</b>  Immunosuppression minimisation using novel non-invasive biomarkers in liver transplant recipients - <b>Georgios Kourounis</b>  Anterograde Pancreas Persufflation versus static coLd storage in patients undergoing isLEt-cell transplantation: the APPLES trial - <b>Abdullah Malik, Newcastle</b>  STREPtokinase flush in Pancreas transplantation from Donation after Circulatory Death donors: STREPP (DCD)-Proof-of-concept study - <b>Jeevan Gopal</b></p> <p><b>Keynote Q&amp;A with Dr Michael Collins, Nephrologist, Royal Adelaide Hospital &amp; Principal Investigator of the BEST-Fluids trial</b> on his experience + tips for trainees on turning ideas into feasible, fundable trial proposals</p>
09:00-10:15	Registration and refreshments
	<b>Pentland &amp; Fintry</b>
10:15-10:30	<p><b>Welcome</b>  <b>Lisa Burnapp &amp; Derek Manas</b></p>
10:30-11:45	<p><b>NHSBT Statistics presentations 2023</b>  <b>Chairs: Rachel Johnson &amp; Krish Menon</b>  Overview of organ donation and transplantation – <b>Lisa Mumford</b>  Latest updates in organ donation – <b>Susanna Madden</b>  Estimated life years lost post liver transplant – <b>Rhiannon Taylor</b>  Outcomes post living kidney donation – <b>Matthew Robb</b>  Factors influencing waiting time and post-transplant survival in pancreas transplantation – <b>Claire Counter</b>  NHSBT Clinical Trials Unit: latest developments in organ donation and transplantation trials – <b>Helen Thomas</b>  Mass evaluation of lateral flow immunoassays for the detection of SARS-CoV-2 antibody responses in immunosuppressed people (MELODY) – <b>Rachel Hogg</b></p>
11:45-12:30	<p><b>Opening Keynote Lecture</b>  <b>Chair: Nicholas Torpey</b></p> <p>Predicting the future – technologies to inform organ utilisation - <b>Menna Clatworthy</b></p>
12:30-14:00	<p><b>Lunch in the Exhibition Hall</b>  <b>Meet the authors</b>  <b>Posters P001 - P022</b></p>
13:00-13:50	BTS Annual General Meeting (members only) (Sidlow)
	<b>Pentland</b>   <b>Fintry</b>   <b>Sidlow</b>

*This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.*

14:00-15:45	<p><b>Stories from around the Commonwealth:</b> how we approach families about organ donation <b>Chairs: Adnan Sharif &amp; Phil Walton</b></p> <p>Approaching families in the UK – <b>Cathy Miller</b> Approaching families – from around the Commonwealth <b>Sam bin Nordin, Pallavi Kumar, Vuyie Soyizwapi &amp; Julie Booth</b> When families overrule donation decision – <b>Karen Otty</b></p>	<p><b>UK organ offering schemes</b> Opportunities and Challenges with different offering schemes <b>Chairs: Derek Manas &amp; Douglas Thorburn</b> The 2019 Kidney Offering Scheme – What has it delivered? - <b>Matthew Robb</b> Fast Track Kidney Offering – <b>Sanjay Sinha and Rommel Ramanan</b> Panellists: <b>Amanda Knight</b></p> <p>Impact of NLOS on organ allocation and initiatives to provide organs for patients requiring retransplantation Understanding the National Liver Offering Scheme – <b>Ian Rowe</b> Use of NRP – <b>Andrew Butler</b> Use of fast-track system and NMP – <b>Thamara Perera</b> Panel discussion Panellists: <b>Ian Rowe, Thamara Perera, Andrew Butler</b></p>	<p><b>Basic Science Session</b> <b>Regeneration of organs and tissues</b> <b>Chairs: Maria Kaiser &amp; Menna Clatworthy</b></p> <p>Generation of “new” islets from stem cells for the treatment of type 1 diabetes – <b>Eelco J.P de Koning</b></p> <p>In vivo grafting of large, engineered heart tissue patches for cardiac repair – <b>Rachel Myles</b></p> <p>3D kidney-on-chip models during drug screening, disease modelling and tissue regeneration – <b>Jennifer Lewis</b></p> <p><b>O02:</b> Increase in inflammation/fibrosis genes associated with normothermic machine perfusion of human liver allografts is attenuated by the addition of a leukocyte filter – <b>Kasra Bahadori</b></p>
15:45-16:30	<p><b>Refreshment break</b> <b>Meet the authors</b> <b>Posters P023 - P043</b></p>		
<b>Pentland &amp; Fintry</b>			
16:30-17:15	<p>Hansa Biopharma - Industry sponsored symposium <b>Getting the Most out of Imlifidase in Kidney Transplantation</b> <b>Chair:</b> Professor Anthony Dorling (King's College UCL &amp; Guy's Hospital) Welcome – <b>Professor Anthony Dorling</b> Bringing Imlifidase into UK Clinical Practice: UK Guideline - <b>Dr Nicholas Torpey (Addenbrooke's Hospital, Cambridge)</b> A Case Report: Use of Imlifidase - <b>Dr Ilkka Helanterä (Helsinki University Hospital, Finland)</b></p>		
17:20-18:35	<p><b>7 of the Best Oral Presentations</b> <b>Chairs: Colin Wilson &amp; Dale Gardiner</b></p> <p><b>O03:</b> Peripheral blood signatures of clazakizumab in late antibody-mediated kidney transplant rejection – <b>Roy Zhang</b> <b>O04:</b> Hypothermic oxygenated perfusion to improve donor heart quality – <b>Lu Wang</b> <b>O05:</b> OTDT Together – Realising our combined potential to save and improve more lives – <b>Ben Cole</b> <b>O06:</b> Outcomes and clinical course in end stage kidney disease secondary to rare diseases – <b>Kerry Rosenberg</b> <b>O07:</b> An audit of the diagnosis of death using neurological criteria following therapeutic decompressive craniectomy – <b>Jennifer Overend</b> <b>O08:</b> Expansion of “REACH Transplant” initiative: Home-based living donor kidney transplantation (LKDT) education for patients in Scotland – <b>Orla Hobson</b> <b>O09:</b> Occult fibrin in deceased donor livers is associated with transplant failure and cholangiopathy – <b>Chris Watson</b></p>		
18:35-20:15	<p><b>Moderated poster session</b> <b>Posters MP01-MP34</b> <b>Welcome Reception</b></p>		
20:15	<p><b>Congress closed</b></p>		

**Thursday 2 March**

Pentland			
08:00-09:15	<p><b>MDT Plenary</b>  <b>Chairs: Jen Lumsdaine &amp; Richard Baker</b></p> <p><b>Clinical case: Donor with encephalopathy</b>  <b>Richard Baker</b></p> <p>Uncertainty of donor diagnosis, Risk of donor derived infection in the recipient and acceptance of organs            Managing recipient outcomes</p> <p><b>Logistical/organisational: Log-Jam in theatres</b>  <b>Sanjay Sinha</b></p> <p>Logistical issues related to the donation process            Impact on recipient centres and access to theatres for planned living donor transplants/UKLKSS exchanges            Different workarounds- e.g. transferring patients, transplant collaboratives</p> <p><b>Panel: Becky Clarke, Manoj Thillai, Clare Ecuyer, Rachel Bell, Kirsty McNally, Simon Messer</b></p>		
	Pentland	Fintry	Sidlow
09:20-10:30	<p><b>Pushing the Boundaries of Deceased Donation</b>  <b>Chairs: Derek Manas &amp; Dan Harvey</b></p> <p><b>Uncontrolled DCD</b>            Case presentation – <b>Dan Harvey</b>            Uncontrolled lung DCD – <b>Antonio Rubino</b>            Uncontrolled kidney DCD - <b>Dominic Summers</b>            Panel discussion: <b>Gavin Pettigrew, Ian Currie, Andrew Fisher, Marius Berman, Jackie Brander, Tom Billyard</b></p> <p><b>ARC impact on donation</b>            Case presentation: We expect ARCs to impact on retrieval, matching &amp; recipients, possibly profound, but what impact will ARCs have on donation?  <b>Derek Manas</b>            ARCS – more questions or answers? <b>Richard Baker</b>            Panel discussion: <b>Chris Watson, Ian Currie, Andrew Fisher, Marius Berman, Jackie Brander, Richard Baker</b></p>	<p><b>Best Practice: Kidney/Pancreas</b>  <b>Chairs: Ellie Asgari &amp; Stephen Bond</b></p> <p>Diagnosis and management of pancreas rejection –  <b>Martin Drage</b></p> <p>Best practices for getting patients on the waiting list early and facilitating pre-emptive transplantation –  <b>Adnan Sharif</b></p> <p>Extending the donor criteria for islet isolation – <b>Lora Irvine</b></p>	<p><b>Best Practice: Liver</b>  <b>Rising Obesity, NAFLD and the impact on liver transplantation</b>  <b>Chairs: Anya Adair &amp; Varuna Aluvihare</b></p> <p>NAFLD – The scale of the problem and novel therapeutic approaches –  <b>Niloufar Safania</b></p> <p>Bariatric interventions to improve obesity related outcomes in liver transplantation – <b>Julie Heimbach</b></p> <p>Case presentation: <b>Aimen Amer</b></p> <p>Panel: <b>Abdul Hakeem, Tim Gordon-Walker, Steven White</b></p>
10:30-11:15	<p><b>Refreshment break</b>  <b>Meet the authors</b>  <b>Posters P044-P078</b></p>		

	Pentland	Fintry	
11:15-13:25	<p><b>Medawar Medal Presentations</b>  <b>Chairs: Lisa Burnapp &amp; Krish Menon</b></p> <p><b>M01:</b> Utilisation and clinical outcomes of simultaneous pancreas kidney transplantation from older pancreas donors-Single centre experience – <b>Jeevan Gopal</b>  <b>M02:</b> Assessment of ‘molecular organ age’ in retrieval kidney biopsies – <b>Roy Zhang</b>  <b>M03:</b> Artificial Intelligence Decision Making in Kidney Transplant (AID-KT): Accurate and explainable machine learning predictions for 10-year kidney graft survival – <b>Laura Wingfield</b>  <b>M04:</b> The role of intestinal barrier dysfunction and the gut microbiota in acute renal transplant rejection – <b>Fernando Yuen Chang</b>  <b>M05:</b> Survival outcomes comparing older living donor versus standard criteria donor kidney transplantation versus not being transplanted: a population-cohort analysis of wait-listed kidney transplant candidates – <b>Kamlesh Patel</b>  <b>M06:</b> Development and validation of a novel HLA molecular mismatch algorithm for alloimmune risk stratification in kidney transplantation – <b>Hannah Copley</b>  <b>M07:</b> Prolonged duration normothermic perfusion of the kidney prior to transplantation – preliminary data from a phase 1 clinical trial – <b>Richard Dumbill</b>  <b>M08:</b> Diagnostic application of gene expression analysis in renal transplant biopsies with histological features of antibody-mediated rejection – <b>Jack Beadle</b></p>	<p><b>Meeting the need</b>  <b>Chairs: Ian Thomas &amp; Amanda Gibbon</b></p> <p><b>Welcome and introduction</b></p> <p><b>Equality, diversity, and inclusion</b>  My Story – <b>DJ Ace</b>  Engaging with communities – <b>Winnie Andango</b></p> <p><b>Leadership and influencing culture</b>  Influencing culture within an organisation – <b>Patricia Miller (V)</b>  Panel discussion</p> <p><b>Integrated working</b>  Bridging the gap between organ and tissue donations – <b>Clare Denison</b></p> <p><b>Paediatric and Neonatal donation</b>  Update in paediatric/neonatal organ and tissue donation – <b>Reinout Mildner and Angie Scales</b>  Panel discussion</p>	
13:25-14:25	<p><b>Lunch and exhibition viewing</b>  <b>Meet the authors</b>  <b>Posters P080-P117</b></p>		
	Pentland	Fintry	Sidlow
14:25-15:40	<p><b>Free communications: Paediatrics</b>  <b>Chairs: Alun Williams &amp; JJ Kim</b></p> <p><b>O10:</b> Paediatrics: Advancing Multidisciplinary Simulation to Meet Emerging Needs and Change Donation Culture – <b>Jill Featherstone</b>  <b>O11:</b> Assessment of Regional Outcomes of Paediatric Renal Transplantation in the UK – <b>Hemant Sharma</b>  <b>O12:</b> The use of donor-derived cell-free deoxyribonucleic acid (ddcfDNA) for diagnosing rejection in paediatric solid organ transplants (SOT) recipients: A systematic review and meta-analysis of diagnostic test accuracy (DTA) studies – <b>Dinarda Nadobudskaya (V)</b>  <b>O13:</b> Investigating outcomes in the use of increased risk donor organs in paediatric solid-organ transplantation: a systematic review – <b>Sruthi Kallath</b>  <b>O14:</b> Molecular HLA mismatching for prediction of primary humoral alloimmunity and graft function deterioration in paediatric kidney transplantation – <b>Jon Jin Kim</b>  <b>O15:</b> Kidney graft outcomes following paediatric blood group incompatible transplantation – a comparative study using UNOS database analysis – <b>Nicos Kessarlis</b></p>	<p><b>Expanding the role of nurses</b>  <b>Olive McGowan &amp; Katie Morley</b></p> <p>Introduction – <b>Olive McGowan</b></p> <p>Machine perfusion and assisting with organ retrieval – <b>Daniel White</b></p> <p>Simulation for enhanced SNOD training – <b>Gordon Turpie &amp; Jenny Hughes</b></p> <p>Nurse-led and outreach clinics – <b>Liz Mowlem</b></p> <p>Advanced nurse practitioner HPB and live donor transplant – <b>Katie McGoohan</b></p> <p>From registered nurse to PhD – <b>Cathy Miller</b></p> <p>Summary &amp; Close – <b>Katie Morley</b></p>	<p><b>Calne Williams Medal presentations</b>  <b>Chairs: Anya Adair &amp; Rebeca Mateos</b></p> <p><b>CW01:</b> Racial disparities in outcomes after liver transplantation in the United Kingdom: a registry analysis – <b>Balaji Mahendran</b>  <b>CW02:</b> Outcomes of liver retransplantation from donation after circulatory death livers using normothermic regional perfusion – <b>Rohit Gaurav</b>  <b>CW03:</b> Waiting for a liver transplant: Should waiting time count? – <b>Manoj Thillai</b>  <b>CW04:</b> Donor liver blood tests do not predict liver transplant outcomes – UK Registry Cohort Study – <b>Samuel Tingle</b>  <b>CW05:</b> Normothermic machine preservation of large DBD liver grafts is associated with early allograft dysfunction – <b>Angus Hann</b>  <b>CW06:</b> Infection incidence and antibiotic pharmacokinetics during ex situ normothermic machine perfusion of deceased donor livers – <b>Muhammad Saeed Qureshi</b></p>

*This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.*

Pentland									
15:40-16:30	<p><b>Chiesi Limited - Industry sponsored symposium</b></p> <p><b>Climate Crisis; Rewriting History</b>  <b>Chair:</b> Mr Colin Wilson, Institute of Transplantation, Newcastle  <b>Professor Hugh Montgomery, UCL</b>  <b>Dr Mark Harber, Royal Free Hospital</b></p>								
16:30-17:00	<p><b>Refreshment break</b>  <b>Meet the authors</b>  <b>Posters P118-P139</b></p>								
<b>Pentland &amp; Fintry</b>									
17:00-17:40	<p><b>Plenary: Living Well, Living Long, Living with Hope</b>  <b>Chairs: Dale Gardiner &amp; Anthony Clarkson</b></p> <p>The "lived experience" of two transplant recipients and a donor mum. Come and listen to how their personal experience of organ donation and transplantation allows them to look to the future with hope from their contrasting perspectives.  Introduction – <b>Dale Gardiner</b>  <b>Eliza Bell</b> – Living again – 4 years post heart transplant  <b>Ross Monteith</b> – liver recipient  <b>Vicki Caldwell</b> – Donor Family  Closing remarks – <b>Anthony Clarkson</b></p>								
17:40-18:30	<p><b>The 3<sup>rd</sup> UK Awards for Excellence in Organ and Tissue Donation and Transplantation</b></p> <p>Recognising excellence in ten categories across the whole organ and tissue donation and transplantation community.</p> <ul style="list-style-type: none"> <li>Exceptional Clinical Lead for Organ Donation</li> <li>Excellence in Delivering Patient Care</li> <li>Excellence in Education</li> <li>Exceptional Organ Donation Committee</li> <li>Excellence in Delivering Transplantation</li> <li>Exceptional Promotional Initiative</li> <li>Excellence in Organ and Tissue Retrieval</li> <li>Excellence in Innovation or Research</li> <li>Exceptional Volunteer</li> <li>Exceptional NHSBT Team</li> </ul> <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;"><b>Award Presenters</b></td> <td style="width: 50%;"><b>Category Hosts</b></td> </tr> <tr> <td>Anthony Clarkson</td> <td>Krish Menon</td> </tr> <tr> <td>Lisa Burnapp</td> <td>Jay Patel</td> </tr> <tr> <td></td> <td>Dale Gardiner</td> </tr> </table> <p><b>Special Guest Performers</b>  The Black Living Donor Choir</p> 	<b>Award Presenters</b>	<b>Category Hosts</b>	Anthony Clarkson	Krish Menon	Lisa Burnapp	Jay Patel		Dale Gardiner
<b>Award Presenters</b>	<b>Category Hosts</b>								
Anthony Clarkson	Krish Menon								
Lisa Burnapp	Jay Patel								
	Dale Gardiner								

18:30	<b>Congress close</b>
20:00-00:00	<b>Gala Dinner – The Edinburgh Suite, Sheraton Hotel “A gala evening with a Scottish flare”</b>

Friday 3 March

	Pentland	Fintry	Sidlow
08:30-09:45	<p><b>Ethics symposium</b> <b>Chairs: Matthew Wellberry-Smith &amp; Stephen Bond</b></p> <p>Current situation in Xenotransplantation - <b>Jayme Locke</b></p> <p>Ethical Issues in Xenotransplantation - an Introduction - <b>Michael Gusmano</b></p> <p>Xenotransplantation - Ethics, public perception, and policy Panel discussion with Q&amp;A</p> <p>Panellists: <b>Sara Fovargue, Claire Williment, Anthony Wrigley, Anthony Dorling, Amanda Gibbon &amp; Antonia Cronin</b></p>	<p><b>Basic Science Oral Presentations</b> <b>Chairs: Gavin Pettigrew &amp; Arthi Anand</b></p> <p><b>O16:</b> Enzymatic conversion of human blood group A kidneys to universal blood group O – <b>Serena MacMillan</b></p> <p><b>O17:</b> Interactions between pregnancy, sex, and early rejection determine long-term graft survival in HLA antibody incompatible (AiT) renal transplantation – <b>David Briggs</b></p> <p><b>O18:</b> Desensitization and belatacept-based maintenance therapy in pregnancy sensitized monkeys receiving a kidney transplant – <b>Miriam Manook</b></p> <p><b>O19:</b> Targeting mitochondrial metabolism to treat ischaemia reperfusion injury using translational models of kidney transplantation – <b>Margaret Huang</b></p> <p><b>O20:</b> Removal of circulating nucleosomes/neutrophil extracellular traps (NETs) reduces ex-situ reperfusion injury in porcine DCD livers preserved with normothermic machine perfusion (NMP) – <b>Hussain Abbas</b></p> <p><b>O21:</b> Impaired oxygen release kinetics compromise the ability of stored red cells to oxygenate tissue during normothermic machine perfusion of the kidney – <b>Richard Dumbill</b></p>	<p><b>Organ retrieval &amp; perfusion technology</b> <b>Chairs: Jas Parmar &amp; Shahid Farid</b></p> <p>Heart beating but struggling to breathe in the UK: Addressing the Challenges - <b>Marcelo Cyper &amp; Hassiba Smail</b></p> <p>Q&amp;A: <b>Jas Parmar, Marius Berman, Hassiba Smail</b></p> <p><b>O22:</b> UK Clinicians' experiences of heart and lung utilisation decision making – <b>Gillian Hardman</b></p> <p>Traversing the Information Highway in Organ Retrieval – <b>Marius Berman &amp; Chris Johnstone</b></p> <p>Q&amp;A: <b>Marius Berman, Chris Johnstone, Shahid Farid, Ian Currie</b></p>
09:50-10:40	<p><b>Pentland</b></p> <p><b>Takeda Limited: Industry sponsored symposium</b> When the management of post-transplant CMV becomes more than a nuisance: An introduction to LIVTENCITY @▼ (maribavir) <b>Chair:</b> Professor Lorna Marson, Royal Infirmary of Edinburgh <b>Dr Adnan Sharif, University Hospitals, Birmingham</b> <b>Dr Mark Harber, Royal Free Hospital, London</b></p> 		
10:40-11:20	<p><b>Refreshment break/Breakfast</b> <b>Meet the authors - P140-P176</b></p>		
11:20-12:35	<p><b>Pentland</b></p> <p><b>Free Communications</b> <b>Chairs: Nicholas Torpey &amp; Ben Ivory</b></p> <p><b>O23:</b> Development of a 'Liver Atlas' using over 1,000 consecutive deceased donor livers to identify hepatic steatosis prior to retrieval – <b>Hussain Abbas</b></p> <p><b>O24:</b> Long term effects of composite warm and cold ischaemic time in deceased donor kidney transplantation – <b>Christopher Seet</b></p> <p><b>O25:</b> Neuroprognostication in Out of Hospital Cardiac Arrest patients following return of spontaneous circulation. The impact of decision making on the withdrawal of life-sustaining treatment – <b>Maria Rita Maccaroni</b></p> <p><b>O26:</b> Prediction of Graft Survival among Living Donor Kidney Transplant: An Artificial Intelligence Approach – <b>Hatem Ali</b></p> <p><b>O27:</b> National Coroner and Procurator Fiscal group – <b>Samantha Halcrow</b></p>	<p><b>Fintry</b></p> <p><b>UKODTRN/Research</b> <b>Chairs: Lorna Marson &amp; Dan Harvey</b></p> <p>Overview of the NIHR Blood and Transplant Research Unit in ODT - <b>Michael Nicholson</b></p> <p>10 years of QUOD: what value has it added to transplant research? <b>Rutger Ploeg &amp; Maria Kaisar</b></p> <p>Examining Consent for Research in Organ Donation and Transplantation - <b>Jessie Cooper</b></p> <p>Dragon's Den winner 2022 – update: <b>Emily Thompson</b></p>	<p><b>Sidlow</b></p> <p><b>Chapter of Surgeons</b> <b>Chairs: Frank Dor &amp; Nicoletta Fossati</b> <b>ERAS: Getting it done!</b></p> <p>ERAS: What, How, When? - <b>Charlie Brown</b></p> <p>The current state of ERAS in organ transplantation in the UK - <b>Nicoletta Fossati</b></p> <p>ERAS seen from a patient perspective – <b>Nasir Quraishi</b></p> <p>How do we implement ERAS across the board? - <b>Carrie Scuffell</b></p> <p>Moderated discussion Chair – <b>Frank Dor</b> Discussants – <b>Irum Amin</b> Panellists – <b>Charlie Brown, Nicoletta Fossati, Carrie Scuffell, Miriam Cortes Cerisuelo, Simon Messer, Derek Manas, Aimen Amer</b></p>

	<p><b>O28:</b> Pancreatic Graft Loss after Simultaneous Pancreas Kidney (SPK) Transplant within First 90 Days. Predictors beyond the Surgical Cause. A UNOS/OPTN Data Analysis – <b>Hemant Sharma</b></p> <p><b>O29:</b> All ECD kidneys are equal but are some more equal than others? A population-cohort analysis of UK Transplant Registry data – <b>Anna Brotherton</b></p>		
12:45-13:30	<p><b>The Organ Utilisation Group Recommendations</b>  <b>Professor Sir Stephen Powis</b></p>		
13:30	<p><b>Wrap &amp; close - Lisa Burnapp, Dale Gardiner, Krish Menon</b></p>		
14:00	<p><b>Congress close</b>  <b>Depart with packed lunch</b></p>		

*This meeting has been supported by pharmaceutical companies by way of exhibition stand space and sponsorship which is limited to funding the educational content of the meeting.*
